

Extending Team Capabilities: A Study in Long-Term Partnership

Cape Henry Associates (CHA) was founded in 2004 as a service-disabled, veteran-owned small business dedicated to manpower analysis, personnel analysis, and training (MPT) services. They are the creators of the proprietary technology stack Lighthouse, which is currently used in support of several military technology applications.

Challenge

CHA, a growing small business contractor, needed a team dedicated to fully supporting and managing its marketing needs so that it could focus on supporting America's armed forces through the development and implementation of cutting-edge technology and other training needs.

Solution

The consistency of services provided to CHA since 2015 means that Powerhouse truly works as an extension of the CHA team, providing full-time team support at a fraction of the cost of full-time employees and with a true understanding of CHA's mission and operations. Operating as a full-time marketing retainer, Powerhouse provides marketing materials, project management expertise, technical writing, and exhibit and trade show support for CHA.

Case Study

Business Name: Cape Henry Associates, Inc.

Website: cape-henry.com
